

CHRISTOPHER FUNK

————— | (—) ——— | Monticello, IA

Education

Iowa State University

Bachelor of Electrical Engineering Major (GPA: 4.00)

Anticipated: May 2027

Ames, IA

Kirkwood Community College

Engineering Transfer Courses (GPA: 4.00)

Aug. 2023 – Aug. 2024

Cedar Rapids, IA

Kirkwood Community College

AAS, Automotive Technology (GPA: 3.98)

Aug. 2019 – May 2021

Cedar Rapids, IA

- Relevant coursework in progress / upcoming (2026–2027): Analog Integrated Circuit Design, Digital/VLSI IC Design, Semiconductor Devices

Research & Design Experience

Undergraduate Research Assistant

Iowa State University, Dept. of Electrical & Computer Engineering

Sept. 2026 – Present

Ames, IA

- Joined Dr. Geiger as an undergraduate research assistant in analog integrated circuit design. Currently in the on-boarding process.

Digital Design Project

Iowa State University

Sept. 2026 – Present

Ames, IA

- Collaborating with a team of students in the ChipForge club to create a digital IC design project. We are in the early stages, but we aim to have our design verified and fabricated using the SkyWater 130nm process in the spring.

Work Experience

Holmes Transmission and Auto Repair Inc.

Automobile Technician

Sept. 2018 – Aug. 2024

Monticello, IA

- Applied problem-solving skills and general knowledge of automotive systems to diagnose using various diagnostic tools (voltmeters, oscilloscopes, etc.).
- Collaborated with a team of automotive technicians on diagnoses and repairs.
- Explained vehicle malfunctions and repairs to customers.

MidAmerican Energy

Protection & Controls Intern

May. 2026 – Present

Davenport, IA

- Developing Python utilities for MidAmerican Energy's Protection & Control department to automate audits of formerly manual reports.

Skills

- EDA / Design Tools: Cadence Virtuoso, QuestaSim
- Experience with C, Python, Verilog, MATLAB; some C++.

Awards

- 2021 SkillsUSA National Championship Automotive Service Technology Gold Medalist
- 2021 Michell1/ASE Technician of the Future
